DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 2, 3, 9, drawn to a cutting arrangement with a specific shell configuration.

Group I, claims 4-7, 10, 12, drawn to cutting arrangement with a specific roll-shell mounting structure.

Group III, claim 8, drawn to a cutting arrangement with a specific bristle configuration.

Independent claims 1 and 11 are claims that do not include the special technical features of the above groups and will be examined with the elected group.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I includes claims directed to the special technical feature of a specific shell configuration (e.g., a half-shell configuration) which is not required for Groups II or III.

Group II includes claims directed to the special technical feature of a specific roll-shell mounting structure (e.g., ribs) which is not required for Groups I or III.

Group III includes a claim directed to the special technical feature of a specific bristle configuration (e.g., an inclination angle) which is not required for Groups I or II.

3. A telephone call was made to Mr. Roger Browdy on August 8, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (571)272-4505. The examiner can normally be reached on Mondays, Tuesdays, Thursdays and Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Boyer D. Ashley can be reached on (571)272-4502. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
